***Allowable Subject Matter***

1. Claims 1-5 are allowed.
2. The following is a statement of reasons for allowance:

Wang et al (U. S. 6,711,418) teaches a wireless personal mobile terminal in a cellular data network includes a packet radio transceiver for communication with cellular base stations and a paging receiver for receiving paging signals from a paging transmitter serving a large geographical area. The wireless personal mobile message unit has power-saving features built into the signal format. This personal mobile message unit accommodates many communication applications due to the high bandwidth and the low latency achieved in the cellular data network.

However, as to claim 1, the prior art of record fails to teach, or render obvious, alone or combination, a portable telephone capable of performing wireless communication with a wireless external interface device having at least a rectangular ground metal layer, an antenna for telephone that is disposed at one end of a diagonal line of the metal layer, and an antenna for wireless external interface that is disposed at a position of  $\frac{1}{4}$  of the wavelength of a transmittance signal for telephone from the other end of the diagonal line, as set forth in the recited claim.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."

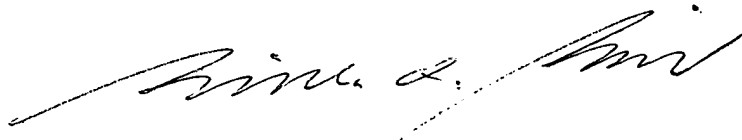

Art Unit: 2642

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karen L. Le whose telephone number is 571-272-7487. The examiner can normally be reached on M-F 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ahmad F. Matar can be reached on 571-272-7488. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
